# Jayjay Rosas

Zamboanga Sibugay, Philippines | Email Address: jaysas0311@gmail.com | Phone Number: 09300345121 | https://github.com/Palho1102 | https://github.com/Palho1102/jayjay-portfolio

## SUMMARY

Bachelor of Science in Information Technology graduate majoring in Database Systems with hands-on experience in web application development, relational databases, and software development. Experienced in developing web applications using PHP and Laravel, working with MySQL/MariaDB databases, and using Git/GitHub for version control.

Currently developing foundational knowledge in cybersecurity through hands-on practice with Linux/Ubuntu, networking and TCP/IP concepts, Wireshark, Nmap, and basic security log analysis. Familiar with basic concepts in network security, authentication, access control, system hardening, and common security practices. Seeking an entry-level opportunity where I can apply my IT background while continuing to develop my cybersecurity and technical skills.

## EDUCATION

**Mindanao State University – Buug Campus** Zamboanga Sibugay, Philippines
*Bachelor of Science in Information Technology (Major in Database Systems)* *Graduated: 2026*

## EXPERIENCE

**IT Intern / OJT** February 2026 – May 2026
*Emergence Systems & Solutions*

- Participated in the development and improvement of web-based information systems.
- Developed and maintained Laravel-based applications using PHP and MySQL/MariaDB.
- Designed and managed relational database structures for web applications.
- Assisted in implementing CRUD operations, authentication, dashboards, and system features.
- Used Git/GitHub for source-code management and version control.
- Performed application testing, debugging, and basic troubleshooting.
- Applied database normalization and relational database concepts.
- Gained practical experience working in a professional IT development environment.

## PROJECTS

**Laundry Management System** | Laravel | PHP | MySQL/MariaDB | Blade | Tailwind CSS | JavaScript

- Developed a web-based laundry management system using Laravel.
- Designed relational database structures for customers, transactions, services, and related records.
- Implemented CRUD functionality and system workflows.
- Developed user interfaces for managing laundry operations and records.
- Implemented authentication and database-driven application functionality.
- Applied Laravel MVC architecture and relational database concepts.

**Task Management System** | Laravel | PHP | MySQL/MariaDB | JavaScript

- Developed a web-based task management application.
- Implemented task creation, updating, tracking, and management functionality.
- Designed database relationships for organizing users and task records.
- Applied Laravel MVC architecture and relational database principles.

**Cybersecurity & Network Analysis Practice** | Linux/Ubuntu | Wireshark | Nmap

- Practiced basic network reconnaissance and port/service identification in authorized environments.
- Used Nmap to perform basic port scanning and identify available services.

- Used Wireshark to observe and analyze basic network packets and protocols.
- Practiced identifying basic indicators of unusual or suspicious network activity.
- Used Linux/Ubuntu command-line tools for basic system and network troubleshooting.
- Practiced analyzing sample authentication and system logs to identify potentially suspicious events.
- Studied basic cybersecurity concepts including authentication, access control, least privilege, and system hardening.

## TECHNICAL SKILLS

Basic Cybersecurity Concepts
Basic Network Security
TCP/IP Fundamentals
Basic Security Log Analysis
Basic Packet Analysis
Basic Network Reconnaissance
Port & Service Identification
Authentication & Access Control Concepts
Principle of Least Privilege
Multi-Factor Authentication (MFA)
Basic System Security & Hardening Concepts
Linux/Ubuntu
TCP/IP
DNS Fundamentals
SSH Fundamentals
Basic Network Troubleshooting
Command-Line Operations
Wireshark – Basic Packet Analysis
Nmap – Basic Network & Port Scanning
PHP
Laravel
HTML
CSS
JavaScript
Tailwind CSS
Blade
Vite
MySQL
MariaDB
phpMyAdmin
SQL
Relational Database Design
Database Normalization
Git
GitHub
VS Code
XAMPP
Composer
npm
Problem Solving

Analytical Thinking
Attention to Detail
Troubleshooting
Adaptability
Teamwork
Communication
Willingness to Learn
Continuous Learning

## CYBERSECURITY LEARNING

Currently developing foundational cybersecurity knowledge through hands-on practice and self-directed learning in: - Linux/Ubuntu Fundamentals - Networking & TCP/IP - Network Security Fundamentals - Wireshark Packet Analysis - Nmap Fundamentals - Basic Security Log Analysis - Authentication & Access Control - System Security & Hardening - Common Cybersecurity Threats and Security Practices
